Joe Godin

Executive Vice President

American Contracting & Environmental Services, Inc.

10330 Old Columbia Road, Suite 102

Columbia, Md. 21046

Dear Sir:

This letter is in reference to the work performed on our contract No. 120090, Miscellaneous Facilities Upgrade – Phase III by American Contracting and Environmental Services, Inc. The referenced contract ran from January 3, 2014 through February 28, 2017 in the amount of \$17,961,822.66. Work performed on this contract included several lump sum tasks, including a Data Room Expansion at the Central Office Facility, an Air Handler and VAV Boxes Replacement at the same building, and a Grit and Screen Building HVAC Upgrade. In addition to this work, the contractor performed approximately one hundred time and materials tasks of varying size and scope to the owner's satisfaction.

Work included various mechanical and plumbing applications, several demolition and reconstruction projects, as well as installation and management of boiler systems, HVAC systems, and various piping applications throughout the Blue Plains facility and outside the fence. High Priority found the workers to be diligent to a fault. ACE management was informed and cooperative in achieving a high level of productivity working with DC Water management accomplishing common goals in completion of projects. In short, American Contracting & Environmental Services, Inc., exceeded expectations in accomplishing work to the satisfaction of the High Priority office and, ultimately, the owner. ACE will be recommended for future contracts and project without hesitation or reservation due to their performance on the above referenced contract.

Sincerely,

Paul Sbardella

CCM, High Priority
